Preventive Covid-19 Measures and Violence Prevention, Communication Campaigns in the IUVP program from March to Sept 2020

This document presents the Covid-19 communication campaigns developed by DIGNITY partners CIPREVICA¹ in Central America and MidRift and HURA² in East Africa, as part of the Intersectoral Urban Violence Prevention (IUVP) programme.

As a response to the increase in domestic violence during the pandemic and lock downs, the communication campaign in Guatemala and Honduras has focused both on the prevention of COVID-19 and on the prevention of violence against women and children. The purpose of the campaign has been to raise awareness, influence norms and attitudes, increase knowledge, refute myths and misconceptions and to suggest which support mechanisms to contact if necessary. The material has especially been targeted to stakeholders and public audiences in Guatemala and Honduras, but has also reached other countries in the Central American region.

Much of the designs and content part (including quotes) of the material in Central America has been developed with inspiration from two books published in 2019 and 2020 by CIPREVICA: “Un Canto a la Vida” (A Hymn to Life) and “El Viaje de La Mujer Fragmentada” (The Journey of the Fragmented Woman). To develop the material CIPREVICA has worked with the Intersectoral Security and Violence Prevention Committees, also referred to as the ‘backbone organizations’ (consisting of leaders from different sectors) in two Central American intervention municipalities: Cuilapa, Guatemala and Danlí, Honduras. These ‘backbone organizations’ work to strengthen local governance and include officials from multiple State institutions and Civil Society actors. The communication material has been shared and disseminated within state institutions and extensively through CIPREVICA’s professional and social communication platforms (e.g. web page, Twitter, Facebook and Instagram).

In Kenya and in Uganda, the communication material has been focused on the prevention of COVID-19, and mental health and violence during the pandemic and lock downs. In Kenya, the posters are in both English and in Swahili. In Kenya, MidRift developed the posters and in Uganda the posters applied the Kenyan designs and were finalized in cooperation with the mentoring organization MidRift, Kenya. Importantly, in the case of Uganda, the ‘buy in’ of important civil society and state sectors, e.g. the ‘Uganda Police Force’ to the messaging of the posters, are evidenced by their agreement to include their logos on the posters. In cooperation with networks of leaders from police, local government and civil society leaders, Midrift, Kenya and HURA, Uganda placed the posters at strategic public places in the intervention municipalities in Nakuru and Naivasha in Kenya, and in Mbale municipality in Uganda.

Translation of quote: Children in Guatemala suffer abuse from both parents. One of the reasons is undoubtedly the violence that the mother endures, which has spillover effects on the children. Furthermore, if the violent aggressor who acts against the mother acts according to a vertical power structure he educates the children with violence, hoping that this regime will form them. (Source: The book "The Journey of the Fragmented Woman", CIPREVICA, 2020) #WeAreOnTime

**Purpose**

**Awareness raising on the importance of reporting violent acts.**

**Inform people of important concepts such as resilience so they can apply it in their day to day life, due to the crisis generated by the pandemic.**
Violence against children – June 7
Translation: “It can affect children’s physical and mental health, impair their ability to learn and socialize, and later undermine their development as adults and parents.”
#WeAreOnTime

Violence against children – June 3
Translation: “90% of sexual violence against children take place in the family environment, the lock down increases the number of cases. Do not let that happen!”
#WeAreOnTime

Raise awareness and sensitize about child abuse due to the increase in cases during the covid-19 lock down.

To raise awareness on the importance of reporting any type of mistreatment and abuse due to the increase in cases of violence against children during quarantine.
We can all contribute, distribute and participate in household chores – June 1
#WeAreOnTime
Translation: “COVID-19 is increasing the burden of domestic and care work, which falls on women in households. We can all contribute, distribute and participate in household chores to make a change.”

Preventive measures to protect children – May 29
#WeAreOnTime
Translation: “Recently, cases of COVID-19 in children have increased, which is alarming. Let’s protect them by following the protective measures to avoid more infections.”

To sensitize and encourage all family members to participate in household chores because the tasks always fall on women.

To inform on the main COVID-19 prevention measures for children due to the surge in positive cases in children.
### Report cases of violence during quarantine – May 28

**#WeAreOnTime**

Translation: “Do not allow your husband or partner to abuse you or your children in this quarantine. Let’s not confuse love with abuse!”

### Don't accept a storm inside your home – May 26

**#WeAreOnTime**

Translation: “The cycle of violence follows a pattern, it begins with emotional and psychological violence. Then it advances into external manifestations through physical blows and attacks and frequently it ends with death.”

Translation: “If you know of a case of abuse or violence against children, report. Children should not be afraid of being at home during this quarantine.”
Psycho-emotional violence – May 24

Translation: “Identify psycho-emotional violence. It is the action in which it devalues, intimidates or controls your actions, behaviors or decisions.

#WeAreOnTime

He doesn’t like you hanging out with your friends. He treats you crazy when you get angry. He tells you how to cut your hair. He insults your loved ones. He doesn’t like how you dress. He asks for your passwords. He tells you what to do. He disqualifies you. He manipulates you. He controls you. He intimidates you. He offends you. He insults you. He is jealous of you.”

To inform on the signs of psycho-emotional violence in order to identify it.
**Preventive measures to protect children – May 18**

#WeAreOnTime

Translation: “Recently, cases of COVID-19 in children have increased, which is alarming. Let’s protect them by following the protective measures to avoid more infections.”

**Break the cycle of violence – May 14**

Translation: “Identify the signs of the cycle of violence. 1. Accumulation of tension 2. Explosion 3. Distancing 4. Reconciliation. After an undetermined time, the cycle repeats itself again and again, until some serious event occurs that stops it.”

**Purpose**

To inform on the main COVID-19 prevention measures for children due to the surge in positive cases in children.

To inform about the cycle of violence so that it reaches a broad audience and for them to identify it.
Informational flyers on how to prevent violence against women – April 29
